**RESPONSE TO RESTRICTON REQUIREMENT**

COMMISSIONER FOR PATENTS  
ALEXANDRIA, VIRGINIA 22313

SIR:

In response to the Restriction Requirement stated in the Official Action dated December 8, 2005, applicant provisionally elects Group (Invention) I, Claims 1-15 and 19-25, drawn to a semiconductor device, classified in class 257, subclass 617.

Applicant respectfully traverses the outstanding Restriction Requirement. The Restriction Requirement asserts that the application contains claim to patentably distinct inventions. However, MPEP § 803 states the following:

... If the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct of independent inventions.

The Claims of the present application would appear to be part of an overlapping search area. Applicant therefore respectfully submits that there is no undue burden on the Examiner to search all the claims under MPEP § 803, and traverses the Restriction

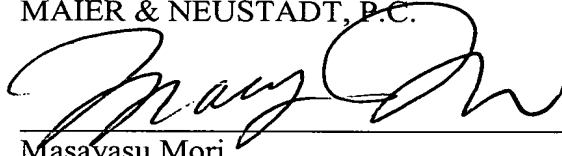

Application No. 10/729,983  
Reply to Office Action of

Requirement on the grounds that a search and examination of the entire application would not place a *serious* burden on the Examiner.

Therefore, it is respectfully requested that the requirement to elect a single group be withdrawn, and that a full examination on the merits of Claims 1-25 be conducted.

Respectfully submitted,

OBLON, SPIVAK, McCLELLAND,  
MAIER & NEUSTADT, P.C.
